| PERTINENT INFORMATION | | | |
| <p>Progress Report, X-2 Branch, 1 July to 31 July 1945</p> <p>THE FOLLOWING INFORMATION IS QUOTED VERBATIM</p> <p>Many useful interrogation reports have been finished, including the tactical reports on KALTENBRUNNER, SANDBERGER, SCHEIDLER (KALTENBRUNNER'S Adjutant), and von BECHTOLSHEIM, a consolidated report on Referat VI E (Balkans) from Twelfth AG, and the Interim Report on <u>SHELLENBERG</u>. The most important single report is the <u>SHELLENBERG</u> report, which comes close to exhausting the essential information on Amt VI as seen from its headquarters. <u>SHELLENBERG</u>'S outline of Amt VI organization causes no particular change in our views of the subject. In fact, our previous knowledge of Amt VI's organization is rather greater than what <u>SHELLENBERG</u> can now remember. To our information on the Mil Amt should be added Mil I, a section created to work on operational deception, along with VI Z.</p> <p>.....</p> <p><u>SHELLENBERG</u> has also given much information on the efforts of the Geheimer Meldedienst to work with I.G. Farben, a co-operation apparently attained only on the lower levels; and another source has supplied background on the VOWI, the research and intelligence branch of the I.G. Farben.</p> <p>.....</p> <p>A number of reports on the interrogation of German agents, captured in Germany, who have been at one time connected with subversive activities in the Iberian Peninsula, have been received. While these interrogations have so far revealed little new information concerning important personalities, they have provided useful corroborative testimony, as well as some new names of minor participants. Copies of these interrogation reports, either in full or in extract form as circumstances demanded, have been forwarded to the interested field stations in Iberia, with requests for suggestions for additional topics of interrogation. Of particular interest in a confirmatory sense was the report on the interrogation of <u>WALTER SHELLENBERG</u>, which contained numerous references to GIS agents and activities in Spain and Portugal.</p> <p>THIS IS ALL THE INFORMATION PERTINENT TO THE SUBJECT IN THIS DOCUMENT.</p> | | | |
